September 2018

Greetings!

Wealthmaker\$ has recognized the need for identity theft and legal protection for our personal and business clients. We have carefully researched the many protections available and have found that LegalShield and IDShield currently offer the most comprehensive and cost-effective solutions.

*The Regional Managers, **Michael and Marilyn McKee**, are well-known professionals in Nebraska & Iowa, certified and very skilled in LegalShield and IDShield products. I personally know them to be individuals of high integrity who will work in your best interest.*

*Please visit with them and learn for yourself the wisdom of having these protections – especially now. By enrolling in LegalShield and IDShield, **as I have**, you will help protect the future for you, your family and your business. They can be reached at 402-909-1418.*

*Use this opportunity now, **before** you find that your data or identity has been compromised. If you prefer that I be at this appointment also, please call me to schedule.*

In Service,

"Assure that what you want to happen, will happen"
